

THE WEDDING EXPERIENCE

PRICING GUIDE

Maddie Peschong Photography

Welcome!

*Let me get real
for a second
... wedding
photography is
a big deal.*

And the chances are if you're reading this, you think it is, too. So I want you to know this first and foremost: wedding photography is a really big deal, and I don't take lightly.

These are the photos your children will gather around to look at, sprawled out on the living room floor on Sunday afternoon. They're the photos that will be displayed in a silver frame on your great-granddaughter's bookshelf, decades from now.

After the last dance has been danced and the last slice of delicious cake has been eaten, these photos are the only tangible thing that you'll walk away from your wedding day with. As memories fade (and they will!), your photographs will keep the moments of your wedding day crystal clear.

It's a big responsibility, and I'm up for the challenge. I can't wait to work with you.

I think getting your picture taken should be a blast, and my mission in life is to make sure nobody feels uncomfortable in front of my camera.

A Little About Me

I'm a wife, mom, cold brew coffee conossieur, podcast binge-r and TV junkie (*Gilmore Girls*, *The Office*, and *Parks and Rec* are my go-to). I've hardly ever met a bottle of wine I didn't like (I mean, there was that one time...), and my favorite summer nights are spent on patios, bev in hand, chatting with my forever boyfriend of 11+ years.

My photography style is real and joy-filled...and real joy-filled. I love the inbetween candid moments just as much as the carefully styled images (probably more), and you can bet on me acting like a total goober to make you laugh. I've been known to look at the back of my camera and shriek with happiness multiple times on a wedding day (okay, let's be real: all day long), and it's not uncommon for me to hang at the dance after my time is up because I'm having way too much fun. Sometimes you just have to *Shut Up And Dance*, ya know?

I believe that taking photos with your boo and your besties should be the funnest part of your wedding day, and I promise to make that happen on your best day ever.

What to Expect

*Here's what
to expect, from
booking on.*

- After you book, I'll send you a quick questionnaire getting some details about you and your fiancé. I'll also send you an over 30 page Wedding Experience Guide. This baby is exclusive to MP Brides, and besides my kids it's my pride and joy. Think of it as your wedding planning bible, from me to you.
- Before your engagement session, we work together to decide on a location, outfits, and any props or themes if that's your jam.
- After your engagement session, you'll receive your full gallery in 2-4 weeks. You are encouraged to share these photos! You're also welcome to print them, on your own (you get a print release for life), or through the online gallery.
- Leading up to your wedding, we're in touch quite a bit! I'll email you with my favorite wedding day tips and tricks, and you are welcome to email, call or text me if you have any questions as you plan (like, should we do a First Look? Should we have an unplugged wedding? Am I seriously supposed to wear that itchy garter under my wedding dress?! Anything!).

- About two months before your wedding, I love getting together over coffee or cocktails to chat deets. We go over the timeline, and I help every step of the way. We make sure you have plenty of time to get all the photos you want. And, you can tell me all of the groupings you want during family photos (and I'll assure you that other than that list, you don't need to worry about a detailed shot list because I've totally got this).
- The day of your wedding, sit back and enjoy the ride! I've got it all handled. If you've hired a wedding coordinator or planner, I'll work with them to make sure we run on time; if you haven't hired someone like that, I'll take charge of the timeline to make sure we're where we need to be, when we need to be there.
- After your wedding, I post previews within 48 hours so you can be assured you looked AMAZING. Then, you receive your full gallery within 4 weeks. Yay!

Engagement Sessions

The fun starts NOW. After deciding on a location that fits your personalities and relationship perfectly, we'll get together for your engagement session.

Let's get this party started.

This is such an important part of wedding planning! Not only is it crazy helpful to get to know each other before your wedding day, but it's also a huge bonus for me to learn how you and your fiancé act together. I want your photos to be a perfect representation of YOU. Whether you are quirky and fun-loving or romantic and serious, your photos should be a reflection of that.

Your engagement session gives me the chance to find out more about the two of you, and how we want to incorporate that into your images.

All wedding packages include a complimentary engagement session. Engagement sessions can take place any time before your wedding day, but I recommend at least 6 weeks in advance. Sessions take place on week day evenings, and we can start planning as soon as you book your wedding!

Often times couples choose to get their engagement photos during a different season than their wedding for some variety, however it's also perfectly fine to schedule them during the same season. If you love summer and your wedding is in July, there's no reason you can't do your e-session then, too!

CHOOSING A LOCATION

I love when couples get creatives for their e-session. If you have a specific location in mind that you'd like to shoot at, I'd love to hear about it.

But don't let this stress you out! If you have no idea, that's just fine. I have so many amazing locations up my sleeve that I love, and I try my best to keep adding to it every year. If you're stumped, you can always lean on me and we'll find a great place.

WHAT TO WEAR

Another thing I don't want you to worry about! I totally get that choosing what to wear for your e-session is overwhelming. I am here to help! When you book with me, you can count on me for help with anything and everything, including your wardrobe. I'll send you the Wedding Experience Guide I mentioned earlier, and I'll get you set up with the coolest thing ever: a personalized style guide that analyzes your personal taste and favorite trends and colors, and recommends styles for your session. It's seriously a game-changer.

STYLE TIPS

You guessed it - the Wedding Experience Guide has a ton of style tips for you to read through as we plan your session, and even your wedding day. However, I'll share a couple as a sneak peek:

- **Hire a pro.** I'd love to connect you with my hair and makeup artist (HMUA) so you feel like the bombshell you are when we shoot your e-session. A good artist knows just what to do to amp up your look for the camera, but never too much that you don't look like yourself. My HMUA is truly one of the best!
- **Don't forget details.** Make sure you get your ring cleaned and your nails done before your session. They're both bound to be the focus in some shots!

Before Your Big Day

*If it's important
to you, it's
important to me.
We'll cover every
detail.*

About two months before your wedding day, I like to get together in person, or set up a Skype sesh or call with you so we can talk through the details of your wedding day. As part of any wedding package, you get a pre-wedding consultation that includes a complimentary wedding day timeline. If you know the time of your hair appointment, the ceremony, and the reception, we can get started!

We'll talk about the things that are most important to you on your wedding day and put together a timeline that reflects that. I'll also send you a questionnaire so I know everything I can possibly know, to help you the best I can.

On your wedding day, we'll run like a well-oiled machine because we've been in touch so much leading up to the big deal. That lets you truly just sit back and enjoy your best day ever!

*Everything will
be taken care
of so you have
one job on your
wedding day:
get married!*

Your Wedding Day

On your wedding day, you'll have no questions left unanswered. I like to arrive just as you are getting the finishing touches of hair and makeup done. I'll get a few photos of you and your girls, and then get to work shooting detail photos. We work together before your wedding day so you know exactly what to have ready for me to dive right into shooting. Detail photography is actually one of my favorite parts of the wedding day!

All wedding day I work off of a two-part shot list. One part is standard and details all of the shots that I like to get on any given wedding day. The other part is totally customized to you and your wedding. Although wedding days can be crazy and no shot can be guaranteed, I work as hard as I possibly can to ensure I capture everything imaginable. I know every family grouping you want, so you don't have to worry about any of that. And, if there are any family dynamics you're worried about, we talk about that too and you can totally lean on me to handle it.

After your wedding, you receive your photo within 4 weeks (but you'll see previews within 48 hours). If your package included any products like an album, we order those ASAP so you can soon be enjoying them in your home.

THINGS TO THINK ABOUT

Let me be your wedding planning fairy godmother.

- Are you and your fiancé planning on doing letters or gifts before you see each other? Are you surprising each other with anything? I'll ask you this question before your wedding day so I am prepared to capture it all!
- Is your wedding day super classy and traditional, or funky and free-spirited? We talk about this so I know what to expect, and how to best capture your day. If you're planning on doing a really fun processional, or if your triplet nephews are your ring bearers, I want to know!
- Will you be doing a first look? I am good with whatever you decide, and can talk you through the pros and cons of both options. My Wedding Experience Guide talks about this in detail, and of course we chat if you have any questions!

Kind words FROM PAST BRIDES

"I truly could not have asked for a better photographer for our engagement and wedding photos. Maddie helped with every last detail and was so organized and collected throughout the entire process.

Maddie has a bubbly personality that made the whole experience fun and laid back. I still get emotional looking through my wedding pictures, and I'm so thankful for all of the special moments Maddie beautifully captured for me to be able to look back on and cherish forever. I can't wait to work with her again."

Katie M.

"I've been trying to decide how I could ever put into words the love we have for Maddie. When we took our engagement photos, we knew right away we made the right choice. Maddie made us feel super comfortable and captured our personalities and chemistry.

On the day of the wedding, Maddie won everyone over. She meshed with the wedding party and our families immediately. Even our little ones in the wedding party were all about taking pictures.

We won't go to anyone else for any pictures ever. Maddie is stuck with us for life!"

Amanda H.

"We had no reservations hiring Maddie as our wedding photographer after seeing the countless amazing weddings she has already photographed. She far exceeded our expectations and delivered us STUNNING wedding photos that perfectly captured our entire day.

Maddie knows how to work with couples to make wedding photos seamless and, most importantly, an entirely enjoyable part of the wedding day. Her creative eye for beautiful shots is impeccable! She puts the couple's requests at the forefront to deliver a photo gallery that encompasses each couple's unique relationship. **If we had to do it all over again, we would hire Maddie in a heartbeat and would recommend her to anyone!"**

Ashley P.

"I honestly don't have enough amazing things to say about Maddie. Maddie makes you comfortable. She makes you laugh. She makes you feel beautiful and confident. Before Maddie, my hubby didn't like having his picture taken. Now, he doesn't like anyone else taking his photos except her.

I can't stress enough that being comfortable with your photographer is one of the most important things about your wedding day. I didn't worry about a single thing on our wedding day because I knew and trusted that Maddie would capture every important moment. Maddie has amazing talent. Her photos are real. They are timeless. I would recommend her to anyone 100x over. My photos make me cry every single time I look at them. Maddie is one of the best out there. Trust me."

A close-up photograph of a bouquet of flowers. The central focus is a large, fully bloomed peach-colored rose. Resting on its petals are a pair of elegant pearl earrings. Each earring features a round pearl set in a diamond-encrusted metal, with a long, teardrop-shaped pearl hanging from it. The background is filled with other flowers, including deep red roses and smaller pink blossoms, all slightly out of focus. The word "Investment" is written in a white, cursive script across the middle of the image, positioned over the peach rose.
